

Attachment B-2 to Exhibit B

Comcast Business Communications, LLC

Contract DIR-TELE-CTSA-010

General Pricing Information Tab

1	Comcast's pricing does not include any construction charges that may apply to a given service. Comcast reserves the right to propose such charges to DIR and/or a Customer on a case-by-case base and shall have no obligation to provide the applicable service unless DIR and/or the applicable Customer agrees to be responsible for such charges.
2	As requested by DIR, Comcast has not provided separate E-Rate pricing. However, the pricing for E-rate eligible services will be at the LCP for such services in compliance with USAC rules. This pricing will likely be lower than the pricing including in the pricing sheets, it being understood that it will not exceed the pricing set forth in the pricing sheets.
3	Broadband DL/UL speed tiers may change over time (typically equal to or better than those listed in the contract) and Comcast will update the pricing sheets, through the EAU process, with the changed speeds prior to quotes or sales to customers.
4	Pricing as listed within the tables are for on-net services. Off-net (type 2) pricing may be provided to DIR or a customer on an Individual Case Basis (ICB).
